PHOSPHO-jet

| Section 1. Identification |  |
| :--- | :--- |
| GHS product identifier $\quad:$ PHOSPHO-jet |  |
| Product use | : Fungicide |
| Supplier's details | : Arborjet <br> 99 Blueberry Hill Road <br> Woburn, MA 01801, USA <br> 1-781-935-9070 |
| e-mail address of person <br> responsible for this SDS | ajinformation@arborjet.com |

## Section 2. Hazards identification

## OSHA/HCS status <br> Classification of the substance or mixture <br> GHS label elements

: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
: Not classified.

Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 100\%

Signal word : No signal word.
Hazard statements
: No known significant effects or critical hazards.

## Precautionary statements

Prevention
Response : Not applicable.
Storage : Not applicable.
Disposal
Hazards not otherwise classified

## Section 3. Composition/information on ingredients

| Substance/mixture | $:$ Mixture |
| :--- | :--- |
| Other means of <br> identification | $:$ Not available. |

## CAS number/other identifiers

CAS number : Not applicable.
Product code : 1 Liter 040-3011
Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

| Description of necessary first aid measures |  |
| :--- | :--- |
| Eye contact | $:$Immediately flush eyes with plenty of water, occasionally lifting the upper and lower <br> eyelids. Check for and remove any contact lenses. Get medical attention if irritation <br> occurs. |
| Inhalation | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get <br> medical attention if symptoms occur. |
| Skin contact | $:$Flush contaminated skin with plenty of water. Remove contaminated clothing and <br> shoes. Get medical attention if symptoms occur. |
| Ingestion | $:$Wash out mouth with water. Remove victim to fresh air and keep at rest in a position <br> comfortable for breathing. If material has been swallowed and the exposed person is <br> conscious, give small quantities of water to drink. Do not induce vomiting unless <br> directed to do so by medical personnel. Get medical attention if symptoms occur. |

## Most important symptoms/effects, acute and delayed

 Potential acute health effects| Eye contact | $:$ No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion | : No known significant effects or critical hazards. |

## Over-exposure signs/symptoms

| Eye contact | $:$ No specific data. |
| :--- | :--- |
| Inhalation | $:$ No specific data. |
| Skin contact | $:$ No specific data. |
| Ingestion | $:$ No specific data. |

Indication of immediate medical attention and special treatment needed, if necessary
Notes to physician : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments : No specific treatment.
Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

## See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing media
Unsuitable extinguishing media

Specific hazards arising from the chemical
Hazardous thermal decomposition products

Special protective actions for fire-fighters

Special protective equipment for fire-fighters
: In case of fire, use water spray (fog), foam, dry chemical or $\mathrm{CO}_{2}$. Use an extinguishing agent suitable for the surrounding fire.
: None known.

In a fire or if heated, a pressure increase will occur and the container may burst.
: Decomposition products may include the following materials: phosphorus oxides metal oxide/oxides
: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

| For non-emergency | $:$No action shall be taken involving any personal risk or without suitable training. <br> Eersonnel <br>  <br> Evacuate surrounding areas. Keep unnecessary and unprotected personnel from <br> entering. Do not touch or walk through spilled material. Put on appropriate personal |
| :--- | :--- |
|  | protective equipment. |
| For emergency responders :If specialised clothing is required to deal with the spillage, take note of any information <br> in Section 8 on suitable and unsuitable materials. |  | in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions: : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains
and sewers. Inform the relevant authorities if the product has caused environmental
pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

Small spill

Large spill
: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

## Protective measures

Advice on general
occupational hygiene
: Put on appropriate personal protective equipment (see Section 8).
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, : Do not store below the following temperature: $4.44^{\circ} \mathrm{C}\left(40^{\circ} \mathrm{F}\right)$. Store in accordance with including any incompatibilities local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep away from heat, sparks and flame. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

## Occupational exposure limits

None.

Appropriate engineering controls

Environmental exposure controls
: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## Section 8. Exposure controls/personal protection

Hygiene measures

Eye/face protection

## Skin protection <br> Hand protection

Body protection

Other skin protection

Respiratory protection

Personal protective equipment (Pictograms)
: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.
Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.

Recommended: splash goggles
: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommened chemical-resistant gloves: polyethylene, butyl rubber, neoprene rubber, or viton.
: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
:

## Section 9. Physical and chemical properties

## Appearance

| Physical state | $:$ Liquid. |
| :--- | :--- |
| Color | $:$ Blue. |
| Odor | $:$ Slight to none. |
| Odor threshold | $:$ Not available. |
| pH | : Not available. |
| Melting point | $: 40.6^{\circ} \mathrm{C}\left(105.1^{\circ} \mathrm{F}\right)$ |
| Boiling point | $:$ Not available. |
| Flash point | $:$ Not available. |
| Evaporation rate | $:$ Not available. |
| Flammability (solid, gas) | Lower and upper explosive |
| Lflammable) limits available. |  |
| Vapor pressure | Not available. |
| Vapor density | Not available. |
| Relative density | Not available. |
| Solubility | Miscible in water. |
| Partition coefficient: n- | Not available. |
| octanol/water | Not available. |
| Auto-ignition temperature | Not available. |
| Decomposition temperature |  |

## Section 9. Physical and chemical properties

Viscosity
Not available.

## Section 10. Stability and reactivity

Reactivity

Chemical stability

Possibility of hazardous reactions
: No specific test data related to reactivity available for this product or its ingredients.
: The product is stable.
: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid : No specific data.

Incompatible materials : Incompatible with strong oxidizers and bases; avoid longer term exposure with metals. products
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

Information on toxicological effects
Acute toxicity
Not available.
Irritation/Corrosion
Not available.
Sensitization
Not available.
Mutagenicity
Not available
Carcinogenicity
Not available.
Reproductive toxicity
Not available.
Teratogenicity
Not available.
Specific target organ toxicity (single exposure)
Not available.
Specific target organ toxicity (repeated exposure)
Not available.
Aspiration hazard
Not available.

Information on the likely : Not available.
routes of exposure

## Potential acute health effects

| Eye contact | $:$ No known significant effects or critical hazards. |
| :--- | :--- |
| Inhalation | $:$ No known significant effects or critical hazards. |
| Skin contact | $:$ No known significant effects or critical hazards. |

## Section 11. Toxicological information

Ingestion : No known significant effects or critical hazards.

## Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact | $:$ No specific data. |
| :--- | :--- |
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | $:$ No specific data. |

Delayed and immediate effects and also chronic effects from short and long term exposure
Short term exposure
Potential immediate : Not available.
effects
Potential delayed effects : Not available.
Long term exposure
Potential immediate : Not available.
effects
Potential delayed effects : Not available.
Potential chronic health effects
Not available.
General : No known significant effects or critical hazards.
Carcinogenicity : No known significant effects or critical hazards.
Mutagenicity : No known significant effects or critical hazards.
Teratogenicity : No known significant effects or critical hazards.
Developmental effects : No known significant effects or critical hazards.
Fertility effects : No known significant effects or critical hazards.

Numerical measures of toxicity
Acute toxicity estimates
Not available.

## Section 12. Ecological information

## Toxicity

Not available.

## Persistence and degradability

Not available.

Bioaccumulative potential
Not available.

## Mobility in soil

Soil/water partition
coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods
: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

|  | DOT <br> Classification | TDG <br> Classification | Mexico <br> Classification | ADR/RID | IMDG | IATA |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| UN number | Not regulated. | Not available. | Not available. | Not available. | Not available. | Not available. |
| UN proper <br> shipping name | - | Not available. | Not available. | Not available. | Not available. | Not available. |
| Transport <br> hazard class(es) | - | Not available. | Not available. | Not available. | Not available. | Not available. |
| Transport Label |  |  |  |  |  |  |

| Additional <br> information | - | - | - | - |  |  |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available.
to Annex II of MARPOL
73/78 and the IBC Code

## Section 15. Regulatory information

U.S. Federal regulations

TSCA 8(a) CDR Exempt/Partial exemption: Not determined
United States inventory (TSCA 8b): Not determined.
FIFRA Information: This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of nonpesticide chemicals. Following is the hazard information as required on the pesticide label:

## CAUTION:

Harmful if swallowed, inhaled or absorbed through skin.
Causes moderate eye irritation.
Avoid breathing vapors or spray mist.
Avoid contact with skin, eyes, or clothing.

## Section 15. Regulatory information

Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Clean Air Act Section 112 : Not determined.
(b) Hazardous Air

Pollutants (HAPs)
Clean Air Act Section 602 : Not determined.
Class I Substances
Clean Air Act Section 602 : Not determined.
Class II Substances
DEA List I Chemicals : Not determined.
(Precursor Chemicals)
DEA List II Chemicals : Not determined. (Essential Chemicals)

SARA 302/304

## Composition/information on ingredients

No products were found.
SARA 304 RQ : Not applicable.
SARA 311/312
Classification : Not applicable.
Composition/information on ingredients
No products were found.

State regulations
Massachusetts : Not determined.
New York : Not determined.
New Jersey : Not determined.
Pennsylvania : Not determined.
