Biological Mosquito Control

USE IN:

- Water gardens
- Flower pots
- Bird baths

KILLS MOSQUITO LARVAE THAT TRANSMIT:

- West Nile Virus • Encephalitis
- Dengue Hemorrhagic Fever
- Malaria

Treats up to 8000 sq. ft.

117-6
Bits 30oz.
040413

Mosquito Bits®

Kills Mosquitoes

Before They're Old Enough To B te*

ALSO CONTROLS FUNGUS GNATS

NET CONTENTS 30oz.
EPA REG. NO 6218-73 EPA EST. NO 6218-MD-2

See the Directions for Use for specific application instructions.

Active Ingredient: *Bacillus thuringiensis* subspecies *israelensis*, Strain 144 solids, spores and insecticidal toxins* 2.86%
OTHER INGREDIENTS 97.14%
TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautionary statements and directions for use.

*Potency: 7,000 International Toxic Units (ITU) per mg of product (0.091 Billion ITU per pound of product). Potency units should not be used to adjust rates beyond those specified in the Direction for Use Section. Note: The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

Mosquito Bits®

BIOLOGICAL MOSQUITO CONTROL

QUICK KILLS WITHIN 24 HOURS

PRECAUTIONARY STATEMENT:
Hazards to Human and Domestic Animals:
CAUTION: Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial Respiration, preferably by mouth-to-mouth, if possible.
IF ON SKIN OR CLOTHING: Call a poison control center or doctor for further treatment advice. Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

Environmental Hazards: Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

MOSQUITO LARVAE CONTROL: GENERAL INFORMATION:

MOSQUITO BITS® is a highly selective microbial insecticide effective against mosquitoes in a variety of habitats. When spread over the surface of containerized water the BITS release a biological mosquito larvicide at the water's surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. **MOSQUITO BITS®** may be used in all types of containerized standing water sites where mosquito larvae grow. The BITS will give a quick kill within 24 hours. For more residual long term control please use **MOSQUITO DUNKS®** after applying **MOSQUITO BITS®**. Employ a seven to fourteen day interval between applications.

OUTDOOR USE AROUND THE HOUSEHOLD:

Sprinkle one teaspoon per 25 square feet or one tablespoon per 75 square feet (1.2 lb. per 2173 square feet) over the surface of the containerized standing water found around the home. Apply **MOSQUITO BITS®** uniformly. Employ a seven to fourteen day interval between applications. Longer periods of mosquito suppression will be obtained with the subsequent use of **MOSQUITO DUNKS®**.

MOSQUITO BITS® can be applied to areas that contain aquatic life, fish and plants. May be applied to areas used by or in contact with humans, animals, horses, livestock, pets, birds or wildlife. Do not apply to finished, treated human drinking water sources.

APPLY TO CONTAINERIZED STANDING WATER FOUND NEAR THE HOUSE SUCH AS:

- water gardens
- bird baths
- unused swimming pools
- flower pots
- rain barrels
- old automobile tires
- roof gutters
- tree holes
- animal watering troughs

KILLS MOSQUITO LARVAE THAT TRANSMIT: West Nile Virus, Encephalitis, Malaria, Dengue Hemorrhagic Fever

FUNGUS GNAT CONTROL: Sprinkle or spread the granules over the soil until the area is covered. Water as you would normally. The watering will release the Bti into the soil where the larvae of the Fungus Gnat will feed on it and die. Repeat this process for a three week period for control. If Fungus Gnats reappear start process over, sprinkling granules on and watering again for a three week period.
