

- 🛡️ Detects presence of termites before they reach your home
- 🛡️ Includes coverage for general pests
- 🛡️ \$250,000 damage warranty included

PROACTIVE TERMITE CONTROL

From our state-of-the-art Term-Alert™ termite protection system - to our \$250,000 termite damage warranty - Rottler offers you the most comprehensive termite defense system in the area. This program also includes protection from pests like ants, spiders, crickets, roaches, as well as offers relief from rodents and stinging insects!

DID YOU KNOW?

Termites cause over \$5 billion in damage to homeowners in the United States each year!

WHAT TO EXPECT

1

Our termite programs always begin with a **thorough interior and exterior inspection of your home** for signs of termites and areas conducive to termite activity.

2

Our team of professional termite exterminators will then **install inconspicuous monitoring stations** around the perimeter of your home.

3

We monitor these stations every other month for signs of termite activity. With each service, you will be presented with a service report detailing any findings or changes in termite activity, and treatment measures taken.

Certificate of Protection included with program.
